THE COMPANY

SABAFREIGHT.COM

ABOUT US

SABA has been providing professional freight forwarding services and cost-effective logistics solutions to the global business community since 1992, catering for both National and International customers in both Commercial and Government sectors. Using its own multi-faceted and diverse fleet of equipment and its Global Network, SABA enables customers to move their products economically across land, sea, and skies.

MEMBER OF IFLN:

(INTERNATIONAL FREIGHT FORWARDING & LOGISTICS NETWORKS)

International Freight & Logistics Network (IFLN) comprises of more than 395 specialist freight companies operating from over 92 countries that links Kuwait and Iraq with every principal trade lane worldwide.

OUR BRANCHES

WORLDWIDE LOGISTICS

MIDDLE EAST

IRAQ

SABA has expanded its infrastructure in Iraq by registering its foreign branch office with the Iraqi Ministry of Trade & Ministry of Interiors in the year 2004. Presently we have a number of qualified employees who are well trained and experienced in supervision handling of overland / Port customs clearance, transportation and security operations inside Iraq.

Iraq Warehousing Facilities:

- Fenced yard at Safwan, Iraq Border
- Secured storage space in Basrah, South Iraq.
- Secured facilities for storage and loading at Baghdad.

EAST AFRICA

UGANDA

KENYA

SOUTH SUDAN

RWANDA

BURUNDI

EAST CONGO (DRC)

TANZANIA

In 2012, a merger agreement was established between two giant companies in their respective regions to form SABA-GIFCO, The Titans of Logistics; serving the logistic needs in East Africa.

Bonded Warehouse Facilities (Lexus ICD)

Our Staging yard of 50,000 square meters is located at Namanve in Uganda with our ICD, Offices, Workshop, Storage facilities as well as handling equipment for Loading & offloading using Container handlers, and transport equipment including Jumbo Reefer for Temperature Controlled Cargo.

AIR FREIGHT

FLEXIBLE SERVICES

With its vast network & solid partnerships with major airlines, SABA can provide customers with competitive rates and services adapted to their ever-changing needs.

LAND TRANSPORTATION

CROSSING BORDERS & EXPECTATIONS

SABA ensures the transportation of all variations of containerized and break-bulk cargo through its expanding fleet of vehicles and supporting asset collection comprised of heavy-duty and multi axle flatbed & lowbed trailers.

- Latest reliable and late models tractor heads & trailers.
- Various sizes of flatbed & lowbed trailers.
- Flatbed for containers & break-bulk cargo haulage.
- Lowbed for multi-axel heavy & over dimension cargo.
- Dump trucks up to 45 cbm.
- Reach stackers up to 45 tons capacity.
- Fuel tankers up to 36,000ltr capacity.
- Water tankers up to 36,000ltr capacity.
- Hydraulic and mechanical cranes up to 300 tons capacity.
- Half lorries, reefers trailer, forklifts etc.

FUEL TANKER

COMPETENCE & SAFETY

SABA provides Fuel Transportation services compliant with the latest Kuwait National Petroleum Company (KNPC) specifications with **Tanker capacities ranging from 5,000 to 36,000 liters**. Equipped with the latest instrumentation and accessories, such as electronic dipsticks, various sensors, IVMS for online monitoring etc. Our certified drivers undergo regular assessment and training to meet Health, Safety & Environment (HSE) and Defense Driving Training (DDT) standards.

SABA IS AN APPROVED KUWAIT NATIONAL PETROLEUM COMPANY (KNPC) AND KUWAIT OIL COMPANY (KOC) PREQUALIFIED CONTRACTOR.

WATER TANKER

YOUR PROJECT'S LIFELINE

SABA provides Water Tanker services with its dedicated fleet of water tankers ready to deploy at any site on demand to provide your project with the fresh water supply it needs.

Water Tankers are also available for hire.

TIPPERS (DUMPERS)

TIP THE BALANCE IN YOUR FAVOR

SABA provides a wide range of tippers in different **sizes from 19 to 45 cubic meter capacity (cbm)** and specifications to carry out your projects safely and efficiently.

Tippers are also available for hire.

EARTH MOVERS

PEOPLE & EQUIPMENT YOU CAN DEPEND ON

SABA provides the best equipment and solutions for earth-moving projects through the wide variety and capacity of its fleet.

Our equipment are also available for hire.

- Bulldozers
- Trenchers
- Excavators
- Vibe rollers
- Wheel loaders
- Dumper

TRENCHERS/ SPARE PARTS

LESS EFFORT, MORE EFFICIENCY

SABA is Authorized Agent for TESMEC | TRENCHERS / SPARE PARTS

Tesmec Group is one of the world leaders in the design, production and supply of high-powered tracked trenchers for linear excavation and surface miners for bulk excavation, which can excavate both in very hard rock and in soil, in permafrost and desert areas.

The trenching technology is the advanced solution for the following applications:

- Telecom networks, FTTH & long distance, power cable installation
- Oil and gas, water pipelines
- Bulk excavation, quarries and surfaces mining

Main features:

- Diesel engine for heavy duty
- Power transmission by hydrostatic drive with flywheel gearboxes
- Automatic digging system with fast-acting creep control
- Operator cabin
- New electronic control system: Trenchtronic 5.0

Trenchers & surface miners

A complete range of machines providing the best cost efficiency and productivity for excavation in different kinds of soil, including hard rock.

- Rock saw trenchers
- Chain trenchers
- Bucket wheel trenchers
- Surface miners
- Georadar explorer 2.0 for buried utilities detection

OIL & GAS LOGISTICS

WHERE SKILL & CHALLENGE MEET

Logistics for the oil & gas industry involves the movement of freight which is voluminous or composed of complex components that must be disassembled, shipped, and then re-assembled. This requires specialized expertise and sophisticated logistical capabilities that SABA has mastered over the years.

**SABA IS CERTIFIED AND PREQUALIFIED BY KUWAIT OIL COMPANY (KOC)
AND KUWAIT NATIONAL PETROLEUM COMPANY (KNPC)**

HEAVY-LIFT HANDLING

BIG CHALLENGES, BIGGER MEANS

SABA provides the equipment and solutions for the lifting and transportation of over dimensions and heavy weight goods. A fleet of multi-axle trailers of up to 500 Tons capacity places SABA as a major contractor in electrical, petrochemical, oil and gas developments.

**WE PROVIDE HAULIER'S LIABILITY INSURANCE OF UP TO
USD 150,000 PER TRAILER LOAD.**

CUSTOMS CLEARANCE

SWIFT CARGO CLEARANCE

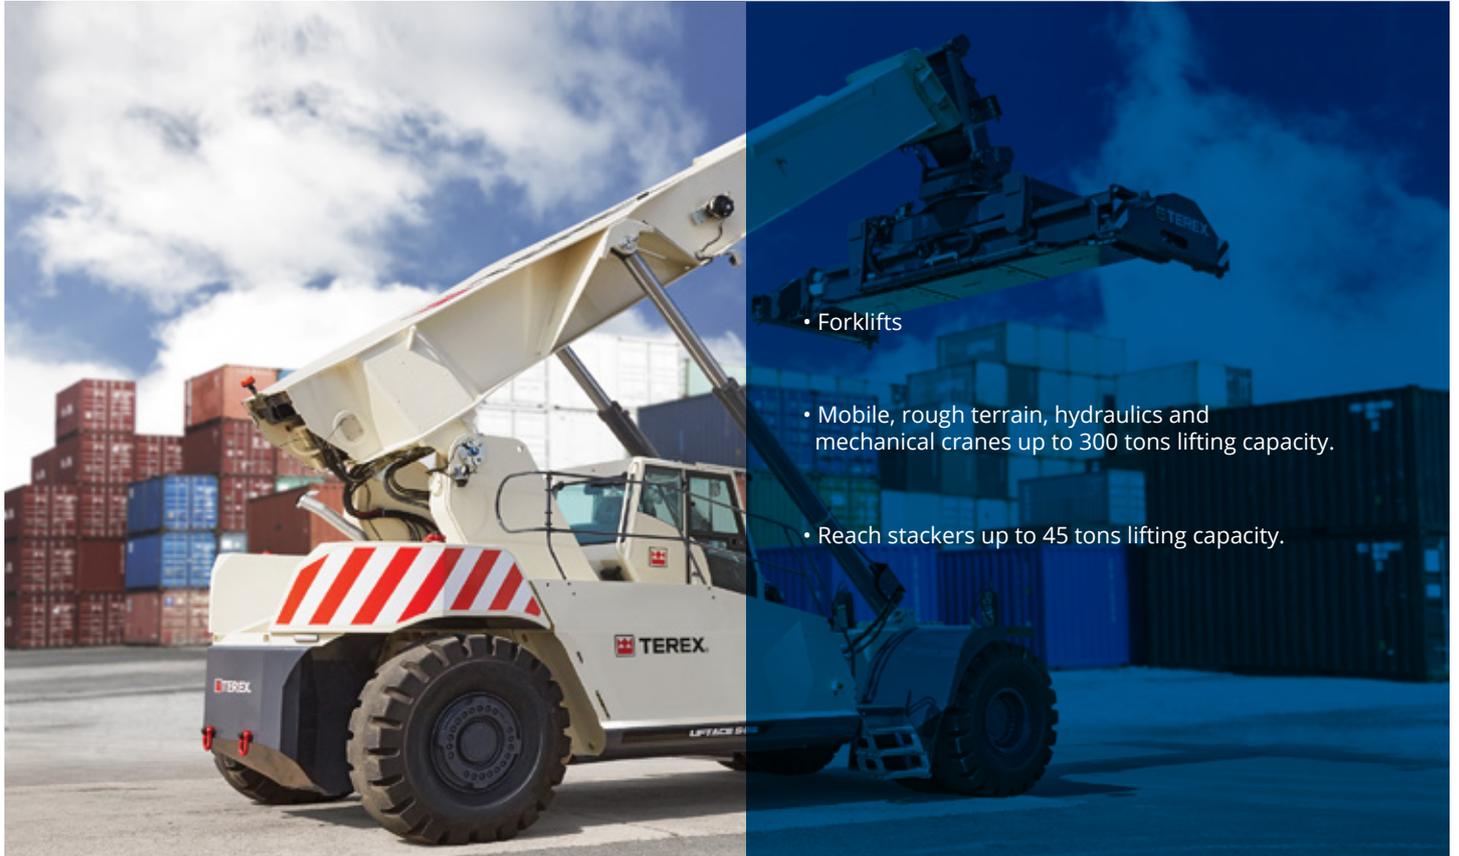

SABA provides a highly qualified and dedicated clearance team ensuring a smooth clearance process of all types of cargo arriving from all dispatch points.

LIFTING EQUIPMENT

TAKING THE LOAD OFF YOUR BIGGEST PROJECTS

SABA has a wide range of lifting equipment including equipment and machinery used for lifting or lowering loads or people, accessories, and attachments used for anchoring, fixing, and supporting equipment.

PROJECT HANDLING & INSURANCE

GET YOUR PROJECTS OFF THE GROUND

Bringing together factory components from overseas, power stations, factories or refineries, and delivering them safely and on time to construction sites is a specialty that SABA prides itself in handling in perfect confidence.

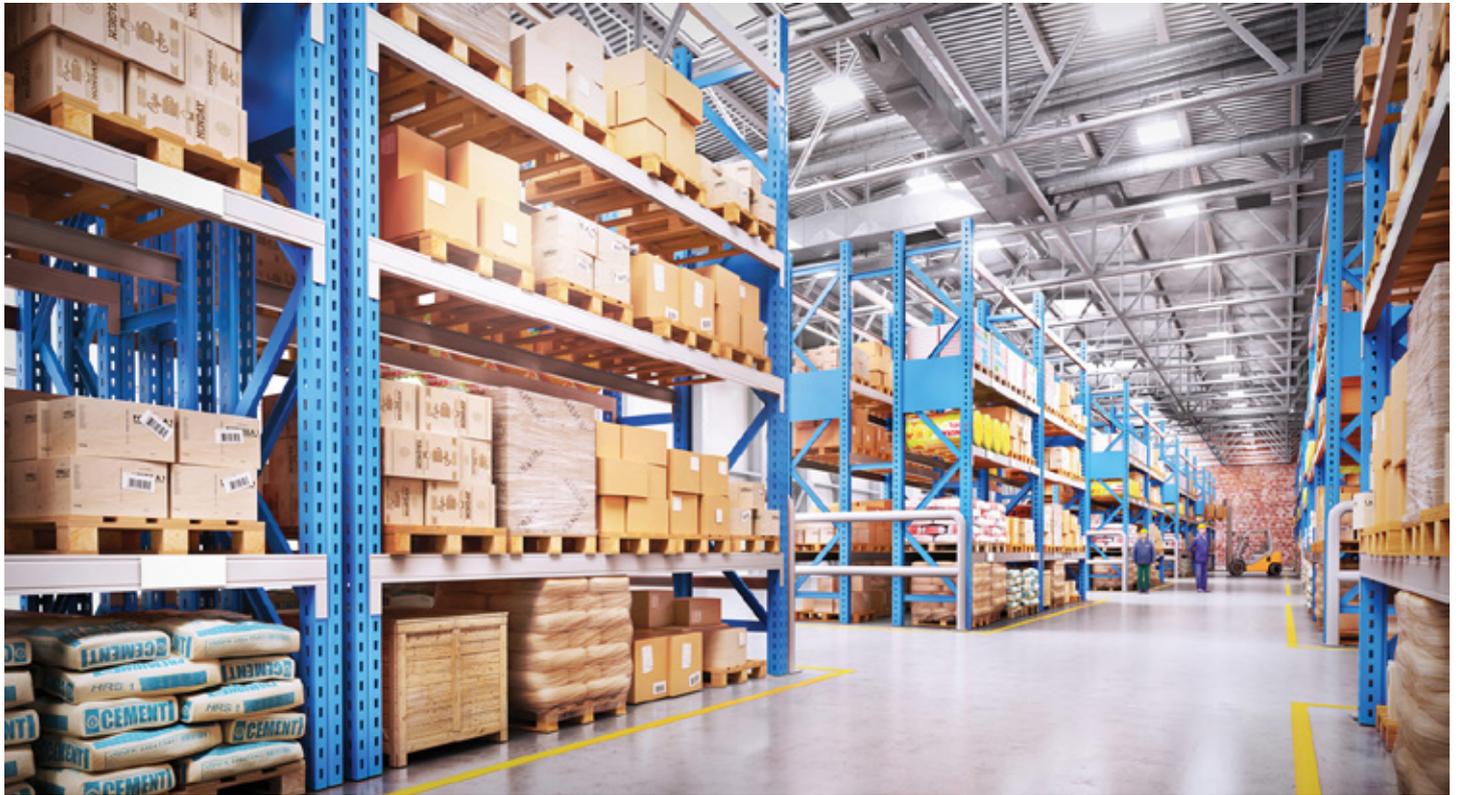

SABA identifies the hidden risks in transportation to form an insurance program addressing those specific risks and provide financial security. In addition to our existing Hauler's liability insurance policy, SABA also offers comprehensive Door-to-Door Insurance coverage at competitive rates.

WAREHOUSING & OPERATIONAL FACILITIES

WHERE YOU NEED IT, WHEN YOU NEED IT

SABA provides access to full range storage facilities through its worldwide partners, for both dry and refrigerated commodities to accommodate all your long and short term warehousing needs.

HSE & QUALITY ASSURANCE

SAFETY FIRST... AND LAST

SABA maintains Health, Safety & Environment (HSE) as a core value and provides support on HSE matters related to its business activities. Committed to continually improve the quality of its services while protecting people, property and environment.

" TO PURSUE HSE EXCELLENCE, ENSURING NO HARM TO PEOPLE, ASSETS AND THE ENVIRONMENT, WHEREVER WE OPERATE "

VALUE ADDED SERVICES

UP-TO-THE MINUTE UPDATES

Satellite Tracking

SABA's in-transit trucks are equipped with IVMS tracking units, an online satellite tracking system that relays movement status and location of trucks. The system ensures safe and punctual delivery of shipments to their final destination anywhere in the Middle East and Southeast Africa region.
